

Permanent Office Establishment Fundraiser

Our Ministry is Growing!

Now we need an office space for the ministry to grow in!

We have found the perfect location, but a contractor is telling us it needs to have about \$150,000.00 in renovations to bring it up to code and make it a functional space for our ministry.

The owner of the building is committed to this ministry. Any rehab work that is done will be considered credit towards our lease ensuring that we have a space that is tailored specifically for our needs for many years to come!

This building will provide office, packing, storage, shipping, volunteer, and receiving areas!

Can you please help us make this happen?
