

Will You Please Help Us Create a Little Souls Cemetery at South Park Cemetery For the Burial and Memorialization of Miscarried Babies?

In 2016, my husband and I had two miscarriages. In that process, we learned that many women did not know they could bury their miscarried babies or did not have a burial place for their miscarried babies lost prior to 20 weeks gestation. As a result, we started the Little Souls Cemetery at St. Mary Cemetery. That resulted in many inquiries about miscarriage burials and resources from the community. In 2023, we started Covenant Resources Miscarriage Ministry, a 501c3 nonprofit, so we could help all families of any religious denomination in Decatur County and beyond. You can learn more about our ministry by visiting our website.

One of my greatest desires when we started the nonprofit was to someday create a Little Souls Cemetery at South Park Cemetery that would be available for use by all families in Decatur County as well as provide a dignified place for Decatur County Memorial Hospital to bury any miscarried babies of families who decide not to do a private burial. We now have permission from South Park Cemetery and Decatur County Memorial Hospital to proceed. We are asking if you will please consider providing financial support for this project so that we can begin development of the South Park Little Souls Cemetery in July 2024. May God bless you always for your generous consideration!

Proposed South Park Cemetery's Little Souls Cemetery Design

For space purposes, we only show one row in the design picture. We would like to develop three rows which would allow for a minimum of 144 burials of remains and 192 memorials for families that do not have remains. It is designed in a way that allows for future expansion as needed. The total cost includes the granite, concrete and installation expenses.
